

The Perfect Internet Service for Your Digital World.

Utilizing our own exclusive and proprietary Lumina® Optima® Advanced Data Optimization Suite of technologies, Destina will allow you to get up to 30 times faster speeds with extreme responsiveness due to ultra-low latency when compared to other existing broadband Internet connections. Whether your current connection is cable, DSL, Fiber, 3G, 4G LTE or satellite, with Destina, your connectivity speed can be increased from 30% up to 30 fold over your current connection without paying the ridiculous costs associated with Internet access at those speeds.

SUPER FAST CONSISTENT SPEEDS

30 times the speed of your existing broadband Internet connection with ultra-low if not zero latency.

HIGH-PERFORMANCE SECURE WIRELESS

Wirelessly delivering the exceptionally reliable speed and security you demand from a premier Internet Service Provider (ISP).

ENHANCED BROADBAND INTERNET ACCESS

An unimaginably more stable, responsive and faster Internet connection, functioning on the existing cellular and infrared wireless infrastructure.

Destina is unparalleled and mind-blowingly fast Internet connectivity delivering the exceptional reliability, speed, and security you demand from a premier Internet Service Provider (ISP).

ENHANCED BROADBAND INTERNET ACCESS
