

NUCLIUS

Ditch Your Cable/Satellite TV, Fire TV, Apple TV, Roku and Everything Else.

Nuclius Ursa is a powerful, portable Live TV media device that streams Live TV programming to any HDTV in the world, but without the Cable/Satellite company and outrageous cost.

THE ULTIMATE LIVE TV STREAMING EXPERIENCE

Nuclius is driven by groundbreaking Live HDTV streaming technology that allows you to watch licensed Local, Basic, Enhanced and Premium Cable Network Content (local news, weather and sports included) anywhere you choose at up to 4K Ultra HD resolution

THE ULTIMATE APP STREAMING EXPERIENCE

Nuclius' Live, Real-Time TV streaming makes your existing media device a thing of the past and is all you will ever need. Your favorite video, music, games and other apps can be enjoyed on Nuclius as well as up to 4K resolution and with Dolby Digital audio.

STREAMING TO YOUR SMARTPHONES AND TABLETS

A first in HDTV entertainment, you can stream your Live TV, Cloud-based DVR movies & shows, Video-On-Demand movies, Pay-Per-View, digital music and more to your smartphones and tablet devices while on the go anywhere in the world.

“Nuclius is the most phenomenal change in live tv since the cable act of 1984. Dethroning the monopolies and overhauling the tv industry is long overdue and the American consumer is more than ready to make the switch.”
